EDUCATION

Washington University in St. Louis *Doctor of Philosophy in Computer Science*

St. Louis, MO, U.S.

2022 - May 2025

University of Kentucky

Lexington, KY, U.S.

Master of Science in Electrical Engineering (GPA: 4.0/4.0)

2018 - 2020

Nitte Meenakhshi Institute of Technology

Bengaluru, India

Bachelors in Electronics and Communication Engineering (GPA: 9.54/10 - Gold Medalist)

2012 - 2016

WORKING EXPERIENCE

Valuation and Market Dynamics

Zillow Group

Applied Scientist - Intern

May 2024 - August 2024

- Explored directions for improving Zillow's flagship product, Zestimate, by incorporating a diverse set of features.
- Developed a scale-aware multimodal model for sales price estimation, learning from both structured tabular data and floor plan images of homes.
- The proposed multimodal model achieved approximately 3% improvement across all metrics compared to the baseline.

Multimodal Vision Research Lab

Washington University in St. Louis

Graduate Research Assistant

August 2022 - Present

- O Developed multi-modal deep learning frameworks for geospatial understanding of global soundscapes.
 - **GeoCLAP** (BMVC 2023): Introduced a tri-modal embedding space integrating satellite imagery, audio, and textual descriptions for zero-shot soundscape mapping across large geographic areas.
 - **PSM** (ACM Multimedia 2024): Enhanced GeoCLAP with a probabilistic, multi-scale, and metadata-aware embedding space for improved zero-shot soundscape mapping.
- Worked on developing additional multimodal embedding spaces:
 - Sat2Cap (EarthVision 2024), GeoBind (IGARSS 2024), and TaxaBind (WACV 2025) for query-driven geospatial mapping.
- Worked on developing frameworks for ecological modeling and visual classification:
 - LD-SDM and BirdSAT (WACV 2024) for species distribution modeling and fine-grained classification.
- O Worked on diffusion-based conditional generation methods:
 - **GeoSynth** (EarthVision 2024) for satellite image synthesis and **Mixed View Panorama Synthesis**, which generates panoramic views using satellite imagery as additional input.
- Built comprehensive datasets:
 - GeoSound: Combined multi-resolution satellite imagery, geotagged sounds, and textual sound descriptions.
 - A global dataset with ~ 2.5 million satellite images and ~ 10 million auditory and visual captions, covering the entire Earth, created using a state-of-the-art multimodal LLM.
- Contributed to the IARPA-funded SMART project:
 - Developed large-scale self-supervised learning (SSL) methods, including Masked Autoencoders (MAE), for remote sensing tasks such as semantic change detection.

Lin Brain Lab University of Kentucky

Graduate Research Assistant

August 2020 - *August* 2022

- Provided applied Machine Learning (ML) and data science support to advance Alzheimer's disease research while working on different modalities such as medical imaging, electronic health records, and genomics.
- Designed CNN and Vision Transformers (ViT) based models trained on MRI/PET imagery. Moreover, with focus on interpretability, designed an inherently interpretable ViT model.
- Built ML models trained on genetics, electronic health records and imaging features for biomarkers discovery and early prediction of Alzheimer's disease.

Speech and Signal Processing Lab

University of Kentucky

Graduate Research Assistant

August 2018 - August 2020

- Performed analysis of articulatory differences in speech of native and non-native speakers of English.
- O Built Automatic Speech Recognition (ASR) based Mispronunciation Detection and Diagnosis (MDD) framework. ASR was trained using Recurrent Neural Networks (RNN) on articulatory as well as acoustic features.

Kantipur Engineering College

Lalitpur, Nepal

Lecturer

April 2017 - July 2018

- O Taught courses: Microprocessor, Instrumentation
- O Designed and conducted lab on Digital Signal Processing (DSP), Microprocessor.

KEY SKILLS

- Languages and Tools: Python (fluent), Pytorch (fluent), Git (fluent), Docker (familiar), QGIS (familiar).
- Research Interests and Relevant Courses: Computer Vision, Multimodal Machine Learning, Deep Learning,
 Self-Supervised Learning, Generative AI, Geospatial AI, Data Science, Data Structures and Algorithms.

AWARDS AND ACHIEVEMENTS

- OCOMPEX Scholarship offered by the Indian Embassy in Nepal for undergraduate study in India, 2012–2016.
- o ECE Gold Medal, 2016 for graduating with Rank 1 in the department.
